Continuation of Substance of Interview including description of the general nature of what was discussed: There appeared to be a typographical error in Claims 1 and 20, as well as in the abstract and the summary of the invention. I spoke with Mr. Hodges and Mr. Cichosz in order to find out whether or not this was a typographical error, or if in fact the invention was intended to operate in this manner. It turned out to be a typographical error, and we agreed an examiners amendment would be the best approach for correcting the mistake. .
